

Committee RECOMMENDATION FORM

- Academic Affairs
- Institutional Support
- Student Affairs
- College Affairs

Recommendation:

The Academic Affairs committee is recommending the addition of the following definition to the requisite definitions list:

Prerequisite with Concurrency: The content in the stated course is required either beforehand or concurrently with the given (target) course. Requires Curriculum Committee approval and enforced in Banner. Use the course approval form to request a prerequisite with concurrency.

Rationale:

This change will help faculty and students better understand courses that are using prerequisites with concurrency.

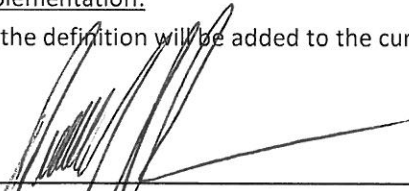

History:

The current COCC requisite definitions were approved in 2012 as the result of a task force that clarified the difference between enforced and unenforced preparatory courses and established the process of approval.

Banner has a category of "prerequisite with concurrency" which has recently been used. This category was not included in the current requisite definitions list. This proposal addresses the omission.

Timeline for Implementation:

Once approved the definition will be added to the curriculum web site. It will also be included in the 2016-17 college catalog.
