

Fee Increase Proposal for 2018-19—Adult Basic Skills

Adult Basic Skills proposes to increase its fee for English Language Learning, Basic Math, and Basic Reading/Writing from \$25 per course per term to \$30 per course per term. In a time of reduced enrollment and uncertainty around funding, the approximate \$3000 of increased revenue from the fee would help fund ABS activities.

The last ABS fee increase was in 2011-12 when the fee was increased from \$20 per course per term to \$25 per course per term. The COCC Foundation provides ABS scholarships for students who need assistance with course fees, and the current account balance would support a course fee of \$30 per term.
