A. Proposal to revise COCC's lactation policy (GPM Section G-4-1), 1st reading, Carol Higginbotham and Laura Boehme

- Some of the current language implied the need for written permission or approval.
- The policy and current practices were not aligned and needed to be updated.
- The question of how many lactation stations we currently have and Laura answered that there were 6. All the remote spots don't currently have a designated spot.

- Stephanie asked for clarification on the unpaid rest breaks and could it say “rest breaks for expressing milk will count as paid work time”? Laura to answer that this was the exact language on BOLI web site.
- Alan Unger, asked if students have the same policy. They can use the same spaces but different policy.
