

## MILITARY SCIENCE

The Military Science program, in conjunction with Oregon State University ROTC, is a strong leadership program open to all students and is designed to give students instruction and experience in the art of organizing, motivating and leading others. The program focuses on leadership, goal setting and implementation, planning and plans execution. Classroom and practical exercises are designed to challenge students in all aspects. The ROTC program provides college-trained officers for the Army, Army Reserves and Army National Guard.

The Military Science program is divided into two phases: the Basic course can be attained through coursework at Central Oregon Community College; and the Advanced course can be earned at OSU, Cascades.

The Basic course takes place during the students' first two years in college, as elective courses. Students will learn basic military skills and the fundamentals of leadership and will start the groundwork toward becoming an Army leader. Students can take Military Science Basic courses without a military commitment. Students completing the Basic course requirements and earning two years of college credit toward a four-year degree can move on to the Advanced Course.

Students can continue with the Advanced course during the students' last two years in college at OSU, Cascades, as elective courses. It includes one class and lab each semester in addition to the requisite physical training and field-training exercises, plus a summer leadership camp. Entering the Advanced course requires a commitment to serve as an officer in the U.S. Army after a student graduates. Upon graduation with a bachelor's degree from an approved four-year college, students can compete to earn a commission as an Army officer.

For more information, contact the Military Science office at 541.318.3774.

### YEAR ONE

#### Fall term
