

## Build a Shaker Style Stool

This piece was designed as a hand tool only project but power tools can be involved if you wish. The joinery is straight forward and very visible. The dimensions can be varied from a plant stand to a table. Though rustic in its very nature it could be spruced up by using some nice figured wood.

Materials – White pine was used in the original plan but any dried wood will do. Finish or paint.

Tasks – (Include some but not all) Straight cuts, curved cuts, dadoes, morticing wedging, chopping, planeing, boring.

Tool List – Measuring and Marking Tools

Power Tools – Tablesaw, Bandsaw, Router, Drills

Hand Tools – Saws, Planes, Spokeshaves, Rasps, Chisels,
