2. Click on 'My Content' and select **Lessons**:

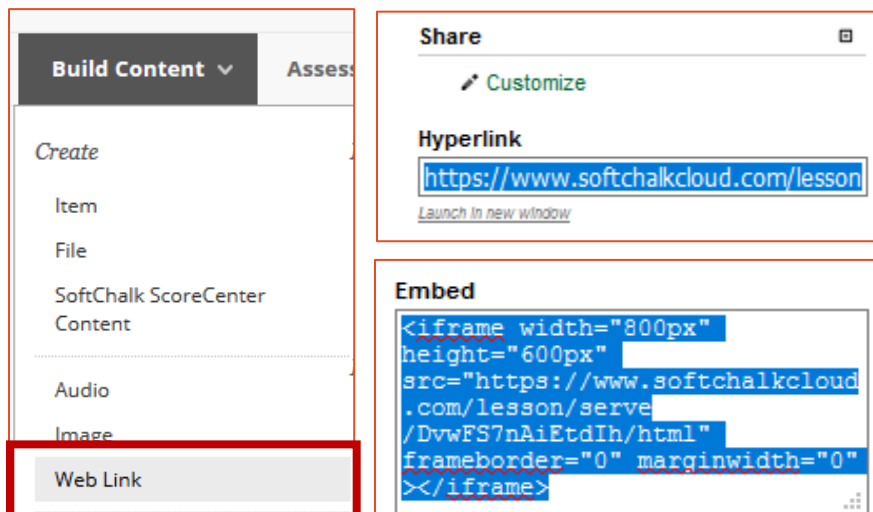

3. On the following page you will see a list of all the SC content you have created, or which has been shared with you. Click on the green hyperlinked title of the lesson to open the Preview and Lesson Options.

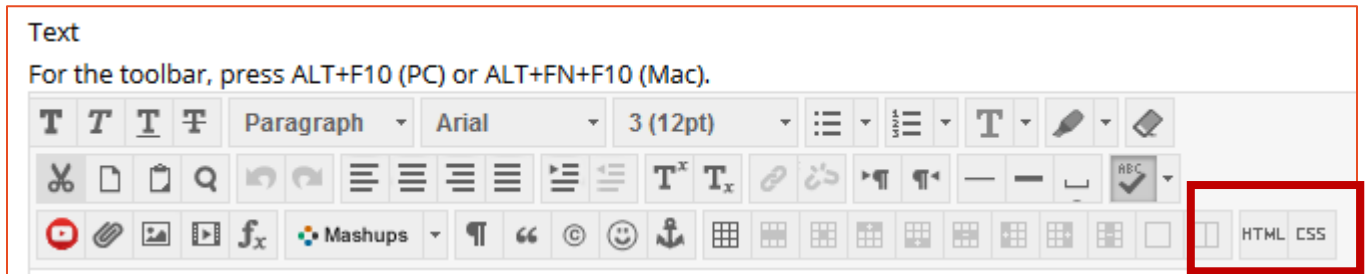

4. You should now see the lesson in a preview pane, with more options directly below.

UNGRADED CONTENT

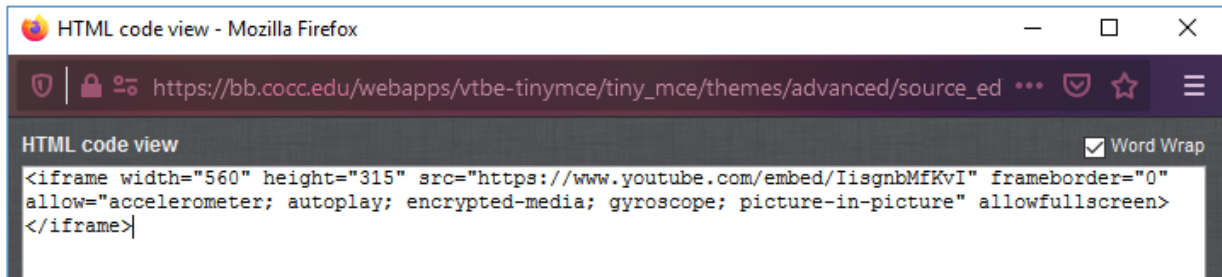

Select either the regular hyperlink, or use the embed option to add your content into your course space. Copy and paste the regular hyperlink into any content area, or using the **Web Link** tool.

To embed directly in the lesson, copy the code starting with <iframe.... </iframe>. Then in Blackboard, open an **Item** and expand the Text Editor and click the button that says **'HTML'**

In the popup, paste the text you copied from YouTube. Click **'Update'**. You should see a yellow placeholder in your Bb Item.

Click **Submit** to Save. The lesson will now appear in-line with your Blackboard content.
