N/A - Not applicable

\*\* If enrolled in a Moda CCM plan using the Synergy or Summit Network, you must select a Medical Home (primary care clinic) for each individual on the plan. Primary care must be performed at the designated Medical Home in order to receive the "In-Network" benefit; if these services are performed outside the individual's selected Medical Home, they will be paid at the "Out-of-Network" benefit level.

1 Deductible waived.

2 Individual deductible and out-of-pocket maximum apply to single coverage only. Family deductible and out-of-pocket maximum apply when two or more individuals are covered on the plan. This plan also includes an embedded per member out-of-pocket max, which is set at the individual OOP amount. Under this plan, deductible must be met before benefits will be paid (except where 1 indicates deductible waived).

3 For PPO plans, OOP max includes medical copayments and coinsurance. Pharmacy copays and coinsurance and ACT copayments will continue accruing towards Maximum Cost Share. For CCM plans, OOP max includes medical copayments, coinsurance, as well as pharmacy copays and coinsurance. ACT copayments will continue accruing towards Maximum Cost Share limit. )

4 Benefit is subject to a reference price limitation. This is not applicable to CCM Plans.

**This document is for comparison purposes only and is not intended to fully describe the benefits of each plan. Refer to the member handbook for more details of benefit coverage. In the case of a conflict between this comparison and the member handbook, the member handbook will prevail.**
