Subject: Program Support and Improvement Taskforce - Approved Recommendations

Hi all,

Attached is the proposal from the Program Support and Improvement (PSI) Task Force. This communication is to the college community that in my role as Chief Academic Officer, I have approved the proposed recommendations that the taskforce submitted to me.

What does this mean?

It means that next year (2016-17), COCC will be engaging in a phase I implementation of an academic program review process.

I would like to thank the taskforce members who have worked tirelessly and enthusiastically since January 2015 to develop a process and propose excellent recommendations for an academic program review at COCC.

The taskforce members are:

Lew Cousineau (CIS Faculty)
Karen Ellis (Art Faculty)
Bruce Emerson (Science Faculty)
Chad Harris (Instructional Dean)
Jennifer Jordan (CIS Administrative Assistant)
Brynn Pierce (Director, Institutional Effectiveness)
Tony Russell (Humanities Faculty/Faculty Assessment Coordinator)
Paula Simone (Fire Science Faculty)
Kathy Smith (Math Faculty)
Nick Sphatt (Paramedicine Director)
Vickery Viles (Director, Curriculum and Assessment)
Zelda Ziegler (Science Faculty)

Thank you all so much! Please let me or any of the taskforce members know if you have any questions.

Thanks,

Jenni
