Adding OneDrive to Your Personal Computer

Once you have installed Office 365, you automatically have access to Microsoft’s OneDrive. Students are given 1 TB (1024 GB) of cloud storage that you can access like a normal folder on your personal computers from anywhere you have internet access. Any files/folders that are “dropped” in this folder are synced with their OneDrive cloud storage account.

✓ Log in to your email through a browser

✓ Once logged in, click the “waffle” and choose OneDrive

✓ Click the Start (Windows Icon) Button and type “onedrive” NO SPACES, case doesn’t matter and select OneDrive for Business

✓ This window should pop up

*** The software and access to COCC’s OneDrive are valid as long as you are a student. Access may be available up to one year after you graduate/are no longer enrolled. Please ensure you have a backup of any documents saved on OneDrive. ***
✓ Go back to the browser that has your online OneDrive and copy the URL (the internet address)

MAKE SURE TO COPY THE ENTIRE ADDRESS it should end in “...All.aspx”

✓ Paste it into the OneDrive for Business window and click Sync Now

✓ OneDrive will begin syncing your COCC files from the cloud onto your computer

✓ Verify this by going to Windows Explorer and looking in the Favorites section of the Folder tree

It will either say “OneDrive for Business” or “OneDrive – Central Oregon Community College”

REMEMBER: DO NOT DISCONNECT FROM THE NETWORK

UNTIL THE SYNC IS COMPLETE!

*** The software and access to COCC’s OneDrive are valid as long as you are a student. Access may be available up to one year after you graduate/are no longer enrolled. Please ensure you have a backup of any documents saved on OneDrive. ***
