

Print Card Care

The COCC and OSU Cascades ID and generic print cards must be treated with care. You can avoid damaging your card by taking a few simple precautions.

- Do not punch a hole in your card
- Do not use it for a key chain or as an ice scraper
- Do not bend, fold, twist, machine wash, scratch or affix stickers to your card
- Don't leave your card on a heat source or in direct sunlight
- Keep it away from magnetic fields like ATM cards, credit cards or any type of magnet.
- You will be charged a \$5.00 fee to replace a damaged COCC or OSU Cascades ID/print card
- All value on the card could be lost if it is not treated with care!
