

# IN HONOR OF INDIGENOUS PEOPLES' DAY

## Celebrating the strength & resilience of Native people with Gabriann Hall

Monday, October 9, 2023 | 11 a.m. – noon  
Wille Hall, COCC Bend Campus  
Free and open to the public

This presentation will celebrate the strength and resilience of Native people. The discussion will cover significant past historical events and current issues within Native American communities. We will glance at the past but have a forward-focused lens, showing that these events do not define who Native people are today. Natives are an active part of our communities and are working to address past traumas in healthy and productive ways. We will be celebrating the strength of our culture. This discussion will combine Native history and oral storytelling that honors Indigenous people in the past and the present. This presentation is by Gabriann "Abby" Hall, an enrolled member of the Klamath Tribes and instructor at COCC.

## Beading Workshop with Amy Cullen

Monday, October 9, 2023 | 2:30 – 4:30 p.m.  
Wille Hall, COCC Bend Campus | Free and open to the public

Come join a hands-on beading workshop lead by Amy Cullen. Amy grew up beading with family and community. Her heritage is Métis (Ojibwe, Cree and Western European). This workshop will include some education on the history of Native beading, Amy's history with beading, and an opportunity to create a beaded rope or carabiner. Participants will leave with knowledge on Native beading as well as their own beaded piece to take home.

**Space is Limited!**  
RSVP required by October 6th  
via email to Geneva or Jeremiah
