interpreters

Looking for experience in the Biological Education field?

Join our group of dedicated
volunteer interpreters.

If you are interested in gaining vital hands on experience in the exciting world of Nature and Biological Education, look no further! Opportunities at the Sunriver Nature Center range from guiding nature trail or botanical garden tours, to giving live animal presentations, to even assisting in wildlife rehabilitation.

If you are reliable, professional and are interested in donating your knowledge and time to a non-profit organization, with the goal of inspiring present and future generations to cherish and understand our natural world-- we want you!

If you are interested in the opportunity to volunteer, please contact our Lead Naturalist, Kody Osborne at Kody@SunriverNatureCenter.org.
