

# Hey Math students!

Do you:

...like to challenge yourself?

...look at math problems as puzzles to be solved?

...like to work with others and share your thought process to problem solving?

Then the Student Math League (SML) challenge might be for you. We're looking for a team of at least 5 students who are interested in meeting weekly to practice and discuss problem solving strategies to prepare for the SML test later this term. The next test is to be held during the 8<sup>th</sup> week of classes this term.

The test includes problems from College Algebra (our Math 111), Trigonometry (Math 112), Geometry, and Probability.

If you're interested please contact Liz Coleman at the COCC Math Department: [ecoleman@cocc.edu](mailto:ecoleman@cocc.edu) or phone 541-383-7414 and leave your name, email and phone number.

Also, see the following web page for more information:

<http://www.amatyc.org/?page=StudentMathLeague>

The Student Mathematics League was founded in 1970 by Nassau Community College in New York. In 1981, the American Mathematical Association of Two-Year Colleges assumed sponsorship with Terry Shell of Santa Rosa Junior College as its first director. The League has grown to more than 165 colleges in more than thirty-five states as well as Bermuda involving over eight thousand community college math students.
