RESERVE FIREFIGHTER PROGRAM

La Pine Fire District
51550 Huntington Road
P.O. Box 10
La Pine, Oregon 97739

ABOUT THE PROGRAM

Reserves work side-by-side with career fire professionals while attending classes at Central Oregon Community College. La Pine Fire District offers resident reserve positions only. The program is a three year commitment, when upon completion and meeting the requirements, the reserve earns an Associate of Applied Science Degree in both Structural Fire Science and Emergency Medical Services. Reserves earn a full scholarship through a testing process conducted through COCC in Bend, Oregon. A full scholarship includes tuition and books reimbursement, a monthly stipend, and ability to earn additional income responding to emergencies. Reserves are required to live in station throughout their participation in this program. District response appointments are granted after successful completion of the reserve firefighter academy, which begins each August.

Application and testing information is available on our website at www.lapinefire.org

REQUIREMENTS

- Minimum age of 18 at time of appointment
- Must possess and maintain good physical condition
- Possess a valid drivers license & insurance
- Must obtain the EMT-B certification by the end of first year
- Complete the Reserve FF I Academy
- Attend all regularly scheduled drills
- Show good response to off-duty calls
- Follow all rules and regulations of La Pine Fire District
- Perform other duties as may be assigned and in accordance with Reserves S.O.G.
- Maintain accumulative GPA throughout the program
