Important updates for health profession students undergoing clinical training in the state of Oregon

If you are a health profession student (e.g., training to become a nurse, physician, medical assistant, etc.) and you plan to undergo clinical training opportunities or externships at clinical facilities (e.g., hospitals, long-term care facilities, etc.) in Oregon, please review the following for information on the new standardized administrative requirements established under Oregon Administrative Rules 409-030-0100.

Beginning July 1, 2014, health profession students will need to meet a standardized, universal set of administrative requirements prior to doing clinical training in Oregon. For most students, satisfying the requirements once will be sufficient for all subsequent clinical training experiences. The requirements include immunizations, screenings, trainings, and proof of coverage under insurance policies (see the attached Quick Reference Guide) and will replace any similar requirements that each facility had previously established. The consensus requirements were developed with input from a wide range of training programs, clinical sites, and regulatory agencies.

The hope is that with these standardized requirements, you will be able to reduce the potential burden of managing multiple requirements across different clinical sites. You will clearly know the expectations prior to any training experiences and all clinical sites will now accept a standard preparation of the requirements listed in these rules. In the long run, these changes will also reduce your costs, as you will not need to unnecessarily repeat trainings, screenings, or tests for each new clinical training experience.

Record keeping responsibility
You will need to work with your educational program (e.g., college or training program) to gather and maintain all the required evidence and documentation demonstrating completion of the administrative requirements. All documents need to be verified by your program prior to the start of any clinical training at an off-site facility. The clinical facilities will then request the documentation from your program as needed.

Completion of the administrative requirements only ensures administrative clearance for you at the clinical site. The clinical facility will still make all final clearance and placement decisions.

Affected students
These new requirements apply to you if you are training in one of the selected professions and you plan on participating in clinical training experiences at an off-site facility in Oregon that is listed in these rules (see attached Quick Reference Guide for details on both). Out-of-state students are also subject to these rules, and efforts are being made to notify programs nationwide of the requirements for students doing clinical in Oregon.

However, a small number of students studying in the following programs or facilities will be exempt from the background check requirements in this rule and will instead need to follow the State Background Check Unit (BCU) rules, found in OAR 407-007-0200.

- A student enrolled in a Board of Nursing approved nursing assistant training program in which the instruction and training occurs solely in a nursing facility, or
- Students who provide care, have access to client information or client funds at a facility licensed or certified by either the Oregon Health Authority’s Addictions and Mental Health Division, or the Public Health Department, to provide services for individuals with developmental disabilities

January 2014
Exceptions for on-site clinical training
If your health profession program offers clinical training opportunities on-site at your facility, you do not need to complete these requirements in advance of the on-site training. For example, students at OHSU do not need to complete these requirements prior to any clinical training at OHSU.

Changes and variations to the requirements
These rules prevent clinical facilities from setting additional requirements within the categories covered under the new standard requirements. For example, they cannot require proof of an immunization that is not listed in the requirements or require that you utilize a 12-panel drug screen instead of a 10-panel drug screen. However, each facility can continue to conduct in-house preparations for students or unique onboarding procedures, trainings or orientation sessions.

In rare and extenuating circumstances (e.g., a public health emergency situation, such as an outbreak that requires a new or different vaccination) the clinical facility may temporarily institute a site-specific variation or change to a standard requirement, provided that it notifies all affected parties and the Oregon Health Authority in advance of any changes. Once instituted, a change or variation will remain in place until next annual review of the rules, at which point a decision will be made to spread the change or variation to all students at all facilities, or to strike down the change.

Exemptions for clinical facilities
A number of facilities have requirements that are set at the federal level (e.g., Department of Veterans’ Affairs facilities) or are otherwise separately developed (e.g., state prisons and correctional facilities). If you wish to do a clinical rotation at those sites, you will need to meet the administrative requirements set forth by those facilities. Please see the attached Quick Reference Guide.

Additionally, if the clinical facility has fewer or less stringent requirements for newly hired, non-student employees, it may request an exemption from specific categories of these rules. For example, if it does not require a new hire at the facility to complete a background check, the facility may request an exemption from the rules so that students do not have to complete a background check either. However, students would still need to follow these requirements for the other categories (immunizations, trainings, and evidence of insurance policies).

Background
As dictated in SB 879 (2011), the standardized set of administrative requirements was determined through a comprehensive and extensive process that involved experts, a wide variety of stakeholders, and public input. The intention of SB 879 was: to mitigate inconsistencies that currently exist across clinical facilities; to promote efficient solutions to reduce costs for students, health profession programs and clinical facilities; and to ensure patient, clinical staff and student safety.

January 2014
Facilities:

Clinical facilities that **must** accept the standardized administrative requirements include:

- Ambulatory care settings (e.g., clinics, private practices, FQHCs, and primary care homes)
- Ambulatory surgical centers
- Hospice settings
- Hospital and emergency departments
- Long term care facilities
- Residential care facilities
- Skilled nursing facilities

Clinical facilities that are **exempt** from these rules include:

- Chiropractic, acupuncture, and massage therapy clinics
- Federal facilities, including Department of Veterans' Affairs, Indian Health Service facilities, and federal prisons
- Health management or administrative departments;
- Public elementary and secondary schools (grades K-12);
- Radiosurgery clinical placements
- State prisons and correctional facilities

Students:

Students in the following health professions must complete the requirements prior to undergoing any clinical training.

- Audiologists
- Clinical laboratory science specialists, including medical technologists, clinical lab scientists, medical lab technologists, and clinical lab assistants
- Dental hygienists
- Dentists and dental assistants
- Denturists
- Dieticians
- Emergency medical services providers
- Hemodialysis technicians
- Marriage and family therapists
- Medical assistants
- Medical imaging practitioners and limited x-ray machine operators
- Nurses, including registered nurses, practical nurses, advanced practice nurses, nurse practitioners, nursing assistants, medication aides and any other licensed assistive nursing personnel
- Occupational therapists and occupational therapy assistants
- Optometrists
- Pharmacists and pharmacy technicians
- Physical therapists, physical therapist aides, and physical therapist assistants
- Physician assistants
- Physicians (Medical/Osteopathic and Naturopathic)
- Podiatrists
- Polysomnographic technologists
- Professional counselors
- Psychologists
- Regulated social workers
- Respiratory care practitioners
- Speech-language pathologists and speech-language pathologist assistants
- Surgical technologists

January 2014
List of Administrative Requirements:
For additional information, documentation requirements, and exceptions please see Oregon Administrative Rules 409-030-0100 to 409-030-0250.

Immunizations:
Evidence requires documented receipt of vaccine or documented immunity via titer or valid history of disease, or a record from the Oregon ALERT Immunization Information System. Per CDC guidelines.

✓ Required Hepatitis B (Hep B)
✓ Required Measles, mumps and rubella (MMR)
✓ Required Tetanus, diphtheria, pertussis (Tdap)
✓ Required Varicella
✓ Recommended Polio
✓ Recommended Influenza (seasonal flu)

Screenings:
✓ Tuberculosis (TB)
  o Facility choice of skin test or IGRA Blood test in accordance with CDC guidelines
✓ Substance Abuse
  o 10-panel drug screen, which must include screens for the following eight substances: Amphetamines, including methamphetamines; Barbiturates; Benzodiazepines; Cocaine; Marijuana; Methadone; Opiates; Phencyclidine.
✓ Criminal Background Check:
  o Must include Social Security Number trace, state/national criminal background history, sex offender registry check, and OIG LEIE check.

Trainings:
✓ CPR/Basic Life Support (BLS) for healthcare providers. It is recommended that trainings comply with the American Heart Association standard
✓ Bloodborne Pathogen training (OSHA)
✓ OSHA-recommended safety guidelines, including the following. Schools must verify student familiarity or exposure to topics:
  o Fire and electrical safety;
  o Personal protective equipment;
  o Hazard communications; and
  o Infection prevention practices.
✓ Site-specific privacy and confidentiality practices. Will occur at EACH facility.
✓ Site-specific orientation and on-boarding. For example, facility-specific protocols for safety, security, standards of behavior, etc. Will occur at EACH facility.

Insurance and Liability Coverage:
Students or health profession programs must demonstrate that students have:

✓ Professional liability insurance coverage and general liability insurance coverage, or
✓ A combined policy that includes professional and general liability coverage

The coverage must remain in place for the entire duration of each placement. The health profession program may offer coverage for students through a self-insurance program or the student may obtain coverage individually. It is also recommended but not required that the student obtain some form of health insurance coverage.
