ASSOCIATE OF APPLIED SCIENCE DEGREE WORKSHEET

About this degree option
The Associate of Applied Science degree trains students in specific technical areas to prepare for immediate employment upon graduation. The checklist provides an outline of the degree; however, specific requirements for each of the Career and Technical Education (CTE) programs are provided on pages 46-186.

Advantages
The AAS degree provides students with the hands-on technical skills needed for employment or certification/licensure in a variety of career areas. Students should note that while the AAS degree is generally a two-year degree option for full-time students, COCC provides certificates of completion in many other Career and Technical Education (CTE) areas which require only one to six terms to complete. See individual program descriptions for options.

Considerations
The degree is not intended to transfer, though most general education and some Career and Technical Education (CTE) courses are eligible for transfer.

Entry requirements
Students are required to take COCC’s placement test prior to registration. As part of this degree, students should begin with the appropriate level of courses based on their placement test results. Students with credits from other institutions should send official transcripts to COCC’s Admissions and Records office prior to registering for classes. Depending on courses taken, the placement test may be waived, prerequisites may be satisfied, and credits may apply toward this degree.

Graduation requirements
Complete all requirements listed below:
• Complete all AAS degree requirements, as listed on pages 46-186;
• Earn a minimum 2.0 cumulative COCC grade-point average;
• Complete at least 24 COCC degree-applicable credits;
• Submit online application for degree
• Owe no debt to the College; and
• Fulfill catalog year requirement as outlined on page 26.
