Expressing Yourself with Your Camera II

We will explore two main topics: 1) The Camera as it is used for specific topics, and 2) The use of Photoshop Elements 10 in the advanced editing mode. Our main areas of instruction will be exploring three subjects, natural light, a selected object and landscapes. In editing we will use tools for stronger composition and image strengthening. We will be working the computer lab on our images using Photoshop Elements 10. We will meet from 1am till noon one Saturday and travel to a site for a morning of taking photos. The location that we will select will be determined by the weather and interest of the class participants.
